

**BHANGRA
& BEYOND**

BHANGRA AND BEYOND

is an exciting project that aims to redefine Bhangra through contemporary dance, music and digital imagery. Working with leading digital, dance and music partners and practitioners to examine the guiding principles, contemporary reality and modern influences of South Asian arts.

Each group will deconstruct and re-imagine them to produce a body of new contemporary work to be showcased in public performances during August to September 2017 across the East Midlands, including Surtal Mela and Derby Feste.
